(Word/Excel/PowerPoint/Outlook/Publisher and More)

Server Setup & Services

Man Hours for installation & Testing approx 7 h _____ **\$640 Inc**

Total Costs Ex Optional Components: **\$2,160 Inc GST.**

Exp. Option 4 – Other optional Components to consider

Linux OS

Our Preferred distributions are: Debian (**free**), **Red Hat Enterprise Server (\$450)** or **SuSE (\$80)**. All these distribution will run **Bynari's InsightServer**, which can be used as an Exchange replacement while still using Outlook on workstations, for a lower price (with Email, LDAP and Calendar also web client approx \$700 for 5 users).

Samba for Windows File and Printer Sharing (Free).

A Linux server will need processing resources so the hardware required for the server will be of a smaller cost. (Approx \$800) _____ \$800 Inc

Setup of Linux Server Labour 6-7h _____ \$550 - \$640 Inc

We would also need to configure Outlook on each user's computer to access the Exchange Server.

Exp. Server Maintenance (Options 1 to 4)

Requirements:

- About 1/2 dozen users.
- Permanent, secure, accessible physical address in city.
- Server will be running Windows 2003 Server with MS Exchange or similar.
- The users require email access through exchange or Web Client and file sharing through a VPN connection.
- Reasonable server troubleshooting in office hours.
- Reasonable Remote Desktop Support.

Montly Cost: _____ \$ 350 Inc
